Ongoing Charges Figure (OCF) - this is a measure of the total costs associated with managing and operating an investment fund. These costs consist primarily of management fees and other expenses such as trustee, custody, registration and other operating expenses. The total cost for the fund is divided by the fund's total assets and expressed as a percentage, which represents the OCF.

The OCF displayed on this website is generally calculated based on the expenses for the 12 month period ended 31 December of the preceding calendar year and is typically updated annually. During the annual update process, the OCF displayed on this website may not yet reflect the most recently completed calendar year. Accordingly, the OCF displayed on this website may differ from the figure disclosed (if any) in the relevant local offering documents due to differences in reporting periods and the timing of updates.
